

Thornborough and Thornton Gardening Society

We have been involved in the community for more than 40 years.

We meet to organize the annual village produce show where we set the schedule.

The show is held in September and is open to all residents within Thornborough and Thornton Parish.

The ethos of the show is to 'have a go'. All entries are welcome.

There are classes for children.

The Village show is always well attended, and the exhibits are of high quality.

Judges are canvassed from around the county.

It is a great way to see the local talent!

The Committee is made up of local people. We are not gardening experts.

We come together to offer another option to get involved in the village and help bring the community together.

Last year 2025, we had more than 200 entries for the show. Cups and shields are awarded to those with the most points in a particular category.

Our fundraising activities ensure that the annual show can continue each year.

The date for the 2026 Village Show has been set for Saturday 5th September.
