

# THORNBOROUGH PARISH COUNCIL

## THE PUBLICATION SCHEME

The scheme commits a parish/community council or parish meeting:

- To proactively publish or otherwise make available as a matter of routine information, including environmental information, which is held by the council or parish meeting and falls within the classes set out below.
- To specify the information which is held by the council or parish meeting and falls within the classes below.
- To proactively publish or otherwise make available as a matter of routine information in line with the statements contained within the scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the council or parish meeting makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make the publication scheme available to the public.

## Classes of Information

The classes which are very broad in nature are set out below together with a brief summary of the kind of information the Information Commissioner anticipates is likely to fall within the scope of the class.

The classes are:

- 1 Who we are and what we do.**  
Organisational information, locations and contacts, constitutional and legal governance.
- 2 What we spend and how we spend it.**  
Financial information relating to projected and actual income and expenditure, tendering, procurement and contracts.
- 3 What our priorities are and how we are doing.**  
Strategy and performance information, plans, assessments, inspections and reviews.
- 4 How we make decisions.**  
Policy proposals and decisions. Decision making processes, internal criteria and procedures, consultations.
- 5 Our policies and procedures.**  
Current written protocols for delivering our functions and responsibilities.
- 6 Lists and Registers.**  
Information held in registers required by law and other lists and registers relating to the functions of the authority.
- 7 The Services we Offer.**  
Advice and guidance, booklets and leaflets, transactions and media releases. A description of the services offered.

The classes of information will not generally include:

- Information the disclosure of which is prevented by law or exempt under the Freedom of Information Act.
- Information in draft form.
- Information that is no longer readily available as it is contained in files which have been placed in archive storage or is difficult to access for similar reasons.

### **The method by which information published under the scheme will be made available**

The model scheme contains standard paragraphs setting out how the information can be accessed.

- Parish/community councils and parish meetings will have the following obligations:
- To ensure the public know what information is covered by the scheme and how it can be obtained.
- Where the council or parish meeting has a website to provide the information on that website.
- If the council or parish meeting does not have a website or it is impractical to provide it in that format or if the applicant does not wish to access the information via the website the council or parish meeting will indicate how information can be obtained by other means and provide it by those means.
- The council or parish meeting will provide details of the person to be contacted by those applicants who wish to view the information in person or to take account of the possibility that certain information only lends itself to be viewed in person. In such circumstances an appointment to view the information must also be arranged within a reasonable timescale.
- To provide information in the language in which it is held or in such other language that is legally required. To also translate any information where the council or parish meeting is legally required to do so. This may be something which could impact on community councils in accordance with the provisions of the Welsh Language Act.
- To adhere to requirements under disability and discrimination legislation and any other legislation to provide information in other forms and formats.

### **Charges which may be made for information published under the scheme**

The model scheme also contains standard paragraphs stating whether any information contained within the classes is subject to a charge.

The scheme emphasises the following:

- That any charges made by a council or parish meeting for routinely published material must be justified and transparent and kept to a minimum.
- Material which is published and accessed on a website will be provided free of charge.
- Charges may be made for actual disbursements incurred such as photocopying, postage and packing plus the cost directly incurred as a result of viewing information.
- Charges may also be made for information provided under the scheme where they are legally authorised, they are in all the circumstances, including the general principles of the right of access to information held by public authorities, justified and are in accordance with a published schedule or schedules of fees which is readily available to the public.
- Where a council or parish meeting is to make a charge, the amount should be confirmed to an applicant in advance. The council or parish meeting may also request payment prior to providing the information if it so wishes.

### **Publishing datasets for re-use**

Public authorities must publish under their publication scheme any dataset they hold that has been requested, together with any updated versions, unless they are satisfied that it is not appropriate to do so. So far as reasonably practicable, they must publish it in an electronic form that is capable of re-use.

If the dataset or any part of it is a relevant copyright work and the public authority is the only owner, the public authority must make it available for re-use under the terms of a specified licence. Datasets in which the Crown owns the copyright, or the database rights are not relevant copyright works.

The Datasets Code of Practice recommends that public authorities make datasets available for re-use under the Open Government Licence.

The term 'dataset' is defined in section 11(5) of FOIA. The terms 'relevant copyright work' and 'specified licence' are defined in section 19(8) of FOIA. The ICO has published guidance on the dataset provisions in FOIA. This explains what is meant by "not appropriate" and "capable of re-use". <b>Information to be published</b>	<b>How the information can be obtained</b>
<b>Class1 - Who we are and what we do</b> (Organisational information, structures, locations and contacts) This will be current information only. N.B. Councils should already be publishing as much information as possible about how they can be contacted.	(hard copy or website)
